

We, the Board, would like to share the following updates on our dissolution journey as Engage STEM's time comes to a close.

## **Engage STEM dissolves.**

Engage STEM dissolved on March 20th, 2023. The California Business Search tool, available at <https://bizfileonline.sos.ca.gov/search/business>, provides more information on Engage STEM's terminated status.

## **Reflecting on our charge – and mandate.**

Over the past four years, we're proud to reflect on a portfolio of leading programs which transformed the lives of countless senior citizens and other students. Our flagship program, Tech Literacy for Seniors, touched the lives of thousands of older adults across the United States and abroad. Our inclusion programs engaged with hundreds of students from 33 states and 36 countries. Further details of our charge and its evolution can be found in [Los Altos Town Crier](#) and MIT News [articles](#). The MIT AgeLab may also retain a recording of the 2020 OMEGA Summit, of which Engage STEM participated.

## **Supporting science & engineering at Foothill College**

Engage STEM has distributed its outstanding assets to Foothill College, supporting a scholarship program in physical science, mathematics, and engineering (PSME).
